Chairperson's Message

I would like to draw your attention that Punya Foundation has crossed another milestone in 2018 by establishing two countries offices in Nepal and Canada this year. Combined with the team that are operating successfully in Australia and USA, we are hoping to launch the Foundation as a strong international team. I would like to congratulate both the Punya Foundation Nepal and Punya Foundation Canada teams for their voluntarism, dedication and interest in getting involved in the work of the foundation. This achievement has helped to focus our attention in increasing the educational reach of orphan youths who were victims of 2015 earthquake in Nepal and other marginalized youths including from the refugee camps in Nepal and Kenya. This is evidence that as things change, the focus of our programming need evolves and changes to incorporate new realities and makes the organization more dynamic. The next goal of the Foundation is to form a small international board represented from different country teams, which would provide strategic direction to the foundations work in these four countries and increase the Foundations education base.

As the Bhutanese diaspora communities are getting more settled in different countries, we envisage new emerging needs in programming for vulnerable youth, children and families. We will continue to explore these new ideas among the different countries board members but our well-wishers, supporters and volunteers are most welcome to suggest the type of educational need that the foundation may need to take up in the future and new ideas are always welcome. The Foundation was able to carry on its work successfully with the support of dedicated volunteers and it is an honour to be associated with such a devoted and self-less team of professionals.

To continue building its humble initiatives and dedicated work, the Foundation requires support of Bhutanese diaspora and other well-wishers from broader community. I would like to urge, all those individuals and Bhutanese diaspora organizations, interested in improving the educational level of marginalized youth and vulnerable people to continue supporting the work of the Foundation. With your support and goodwill gesture, the

Foundation is steering its educational programming more confidently and strategically.

As we reported in the past, the Foundation stands to empower vulnerable people and build capacity of youth through education and engagement programs rooted in Paulor Freire's philosophy of education and capacity building that encourages organizing programs for marginalized people by consulting and involving them to raise their consciousness about their social world. It believes in Swami Viveka Nanda's philosophy of universal tolerance and respect for humanity, creating opportunities for young people from all socio-economic and cultural background without any forms of discrimination. With these believes and commitment in strengthening the assets of vulnerable youth and women through education, and community involvement initiatives, the Foundation is grounded firmly.

Annual Report Team

Dilasa Dhakal Report Compiler

Recently we moved to Northeast Victoria. This kept my father busy and was struggling to spare time to write the annual report. Fortunately, *I was done with my* school academic year. I wanted to learn while lending my father a hand and volunteered to compile this draft report. To assemble this piece of work, I reviewed previous years' reports, surfed through the Foundation's webpages and got inputs from my parents. I have learnt a lot during this and I am proud to call myself one of the writers of Punya Foundation Annual Report 2018.

Vidhyapati Mishra Designer

Mishra, who finds passion in graphics design, has been associated with the Punya Foundation right from its establishment. Currently, he also serves to Punya Foundation US board as General Secretary.

Based in Charlotte,

North Carolina, in the United States, Mishra practices real estate. He also practices journalism on voluntary basis being affiliated to Bhutan News Service and Bhutan Media Society.

Born in Dagana Bhutan, he spent around 21 years in the Bhutanese refugee camps in Nepal. After moving to the U.S. in 2013, Mishra earned an undergrad degree in Mathematical Statistics. Currently, he is pursing his Masters in Applied Statistics from University of North Carolina at Charlotte.

Nawal Khatiwada, Artist

A registered nurse by profession, Nawal is one of the celebrated youth artists. His arts are based on real lifetime experiences and take abstract in their course. Nawal has been contributing an art for the Foundation's annual report since the last 6 years. The Foundation team expresses its gratefulness.

This year Nawal runs his brush with a theme community engagement. This is to symbolise and reflect Foundation's focus on community engagement in 2018. Five fingers with distinct yet blending array of colours coalesce into united and empowered hand symbolising individual's engagement and thereby empowerment.

The discrete portrayal of human silhouettes in this artwork represents diversity, but, one and together. The soothing colour combination gives tinge to the country of origin; however, amalgamates to Punya Foundation's logo and its mission.

- Empowerment'
