FROM THE DESK OF THE CHAIRMAN

What counts in life is not the mere fact that we have lived. It is what difference we have made to the lives of others that will determine the significance of life we lead.

It gives me great pleasure to present to you yet another year of great achievement that Punya Foundation has crossed in 2019 by making the Foundation a strong international team. We are continuously relying on the Bhutanese diaspora communities for suggesting new programming ideas based on the emerging needs for vulnerable youths, children and families. Please do come forward with your suggestions on the type of educational and human development programs that the foundation may need to take up in the future. The Foundation is highly indebted to the dedicated volunteers who had been instrumental in carrying on its work successfully and it is an honour to be associated with such a devoted and self-less team of professionals.

To continue building its humble initiatives and dedicated work, the Foundation requires support of Bhutanese diaspora and other well-wishers from broader communities. I would like to urge, all those individuals and Bhutanese diaspora organizations, interested in improving the educational level and capacities of our marginalized youth and vulnerable

people to continue supporting the work of the Foundation. With your support and goodwill gesture, the foundation is steering its programming more confidently and strategically.

The Foundation aims for higher aspirations inspired by Nelson Mandela who states, "what counts in life is not the mere fact that we have lived. It is what difference we have made to the lives of others that will determine the significance of life we lead". Mandela further states, "Education is the most powerful weapon which you can use to change the world." Similarly the Foundation stands to empower vulnerable people and build capacity of youth through education and engagement programs rooted in Paulor Freire's philosophy of education and capacity building. It believes in Swami Viveka Nanda's philosophy of universal tolerance and respect for humanity, creating opportunities for young people.
